Frankpeter Ani (Daze)

UI/UX ENGINEER

http://dazeign.netlify.com

frankpeterani @ gmail.com

I actively keep an eye for pain points in User Interface and User Experience through psychology and creative work, while using this same mindset in building what I love with Web technologies.

Work Experience

[iNSPARK Enterprises]

[Junior UI/UX Designer]
August, 2020 — Present

inspark is a digital agency in Enugu Nigeria.
https://inspark.com.ng

I worked on several client projects. I worked on my design thinking system with hands-on projects I also effected my communication skills and understood more about how working in an organised environment is, the hierarchy. I proposed to do a redesign of the current inspark website, and when I was done, they loved it.

[Happivibe Services]

UX Consultant
October, 2020 — Present

Happivibe is a calling service geared towards bringing joy to clients.
https://www.happivibe.com.
I worked amongst the design team remotely and offered my take on UX ideas needed for the product and their services.

Education

[Genesys Tech Hub]

[Frontend Web Intern]
August, 2020 — December, 2020

I was chosen to join the Codename: Learnable internship at Genesys Tech hub, Enugu as a Frontend Developer Intern. Throughout the internship we worked as teams and I learnt alot of soft skills as well as how to use JavaScript and React even more.

[Techocraft ICT Academy]

[Frontend Web Developer]
January, 2019 — August, 2020

I started a boot camp here on website design and learnt here while doing projects using HTML, CSS and some graphics design. I also did a lot of projects using CSS frameworks like Bootstrap and Materialise.

[Google Africa Developers Scholarships]

[Mobile Web Specialist]
March, 2019 — December, 2019

I got selected by Andela to start learning in their scholarship program as a mobile web specialist. GADS took me deeper into HTML5, CSS3, JavaScript. We took Skill IQ tests and projects to progress into higher stages.

[DevC Training with Andela]

[Core track Web Developer]
March, 2019 — November, 2019

I also got selected by Andela for their Developer Circles program from facebook. I learnt I did some projects using ReactJs.

Awards

[GADS 4.0 Hackathon Runner Up]

There was a hackathon event for developers in the Google Africa Scholarship program and I came out 2nd place.

[StartNG 6.0 Internship Finalist]

Start.NG is the pre-internship program for HNG Internship. I completed the program above average.

[FSI Hackathon Quarter Finals Runner Up]

I was among the Team uPay that came second in the quarterfinals of the FSI International Hackathon with SandBox at Lagos.
